WHAT ABOUT TRADING PINS?

There are plenty of opportunities to trade pins at DECA ICDC! Members can trade pins in the main hallway prior to the Grand Opening Session. Members can also use pin trading as networking opportunities before or after their competitive events briefings and preliminaries, while participating in leadership academies, while visiting the exhibit hall, at DECA special activities and more. These are great opportunities to find members from the other regions who are not assigned to your opening session. Please be mindful of waste by discarding plastic bags appropriately. Please represent DECA professionally by not littering.
